

2022 DANCEEAST ASSOCIATE ARTIST APPLICATION QUESTIONS

ABOUT YOU

We want to know more about you and your practice. If you are submitting a video application, each question in this section should be answered within 2 minutes.

Why you - Tell us how you intend to work with DanceEast and what you would bring to DanceEast? Why now, at this point in your career?

How do you see this programme working for your practice? What do you already know about DanceEast that makes you think we're a good fit for you, at this point in your career? What could we expect from you, could we learn, gain research? Could you engage with our participants or audiences in some way?

What do you aim to achieve from this experience?

Being a DanceEast Associate Artist has meant something different for each previous artist we have worked with. The three-year duration of the programme allows us the time to be able to support associates with tailor-made packages to support and invest in them.

Tell us what support and benefits you would be interested in receiving?

Tell us about your artistic practice. What motivates you to make work, do you explore recurring themes? What are your current interests as an artist?

Top tip: Check out [this video](#) to hear the variety of support that previous Associates have received.

Who are your audience, cast and/or participants and how do you engage with them?

Are you interested in making work that speaks to a specific group? Who do you create projects or work with and why is that important to you? If you are still finding this out tell us a bit more about who you are interested in reaching longer term and how you want to make that happen?

SUPPORTING FOOTAGE + VIDEOS

If you are completing a video application, please attach your answers here.

For all applicants, please send one to two links to recent or relevant works.

Please remember to provide passwords to files if needed.

Please do not send video applications as Downloadable (Dropbox or WeTransfer) links that may expire and if you choose to use Vimeo or YouTube and a password, please make sure you share the password with us.
